AutoSonix* Ultrasonic System with Shear Logic* Circuitry

Shear Logic* Circuitry enables the AutoSonix* Generator to sense heavy load conditions and deliver increased power to the shear or probe. This automatic increase in power results in maintenance of blade amplitude as well as cutting and coagulation speed.

14% Increase in Available Power

Consistent Cutting Action in Various Tissue Types

Complete Disposable Product Offering

Long Shear may be used in Bariatric Procedures

Parallel Jaw Closure

Finger Trigger Control
